

## PreK - K

(must be at least 4 years old)

### Big & Small

The animal kingdom is filled with creatures of all shapes and sizes. This summer you'll discover how each one is specially adapted for its habitat. This week campers will develop their understanding of opposites and learn that it's OK to be different—and sometimes being different is an advantage.

### Artistic Animals

Wild webs, nifty nests, and crazy colors! Crayons, clay, watercolors, and paint will help campers learn how animals use a variety of shapes, patterns, and colors to survive in the wild. Come discover the world of amazing animal artists!

### Creature Features

Eyes, ears, nose... fur, feathers, toes?? Join us in comparing the unique physical traits of animals to our very special traits. Campers can also create a creature of their own by combining the traits they discover!

### Pollinator Pals

Birds, Bees, and Bats! These are a few of the animals responsible for pollinating plants to make the food we eat. Discover the seed spreaders and pollinators that help our favorite plants grow!

---

## 1st - 2nd

### Outback Adventure

Say “G’day” to the Australian species that call LA Zoo home. Campers will discover animals with pouches, mammals that lay eggs, and more!

### Sense-ational Safari

Senses are our specialty during this week-long adventure. Which animal can see a tiny mouse from over 200-feet up in the sky? Does the animal with the biggest ears have the best hearing? And how can a snake smell with its tongue?! Find out all about these sense-sational creatures and more!

### Squad Goals

Herd, clan, colony, mischief, or mob. For many animal species, teamwork is essential for survival! Join our team as we learn about animal group dynamics!

### Big Cats & Wild Dogs

Roars to meows! Barks to howls! What makes a cat a cat and a dog a dog? They have a lot in common, but their differences are nothing to bark or purr at. Discover what makes cats and dogs special as we get up close and personal with these amazing animals.

## 3rd - 4th

### Animal Olympics

Can you jump as far as a kangaroo? Does your tongue stretch as far as a tapir's?  
Can you lift a tree like an elephant?  
Bring your energy and your muscles to the zoo and discover the strongest, fastest, gold-medal-winning-est athletes of the animal world.

### Rainforest of the Americas

Get your rain gear ready! This week you will travel through the layers of the rainforest to discover monkeys, tapirs, otters, and more! You'll discover the special features of each layer of the rainforest and how the rainforest is important to all of planet Earth!

### Planet Primate

Go bananas over this creative creature camp as we explore the wonderful world of primates. Become a primate researcher and uncover what makes each primate unique, from the red-headed orangutans of Sumatra to the spider monkeys of South America.

### Monsters & Dragons

From the Monster of Loch Ness to the Komodo Dragons of the Los Angeles Zoo, we'll unravel the myths and realities of monsters and dragons during this crazy week of creature camp.

---

## 5th - 6th

### Comic Creatures

What makes a hero heroic? What's so villainous about villains?  
This week, you'll meet some of the coolest creature-based characters of comics, film, and mythology. You'll discover what makes them tick, and create your very own creature superhero or villain!

### Reptile Romp

Slithering snakes and extra-large lizards! Become a Herptologist and discover how reptiles move, what they eat, how they keep warm, and more!

### Science Safari

Make observations and discoveries during this science themed week!  
Campers will conduct experiments and learn how to be a scientist while studying our natural world.

### Where in the World?

Where in the world? Take a trek around the Zoo by using daily clues to discover the habitats around the world that animals call "home."
